Personalize your own Kids Touch Table

Prestop introduces the compact size kids table which can be customized in your own design. Whether it is for entertainment while parents are shopping, for education, waiting rooms or for interactivity at a museum or library setting. Kids will love the interactive experience! Prestop offers this unique and high quality design Kids Touch Table, made and designed in The Netherlands. The rounded corners provide better safety for children. The housing is made of robust steel with sturdy legs. The top side is made of fully hardened 4 mm glass (bezel free, edge-to-edge). The glass is therefore very easy to clean. The children's table is equipped with a safety screw plug. Optional is our own Omnitapps Games multi-touch software. Children can play by themselves, play against each other or work together. Suitable for 1 to 4 players. Let the games begin!

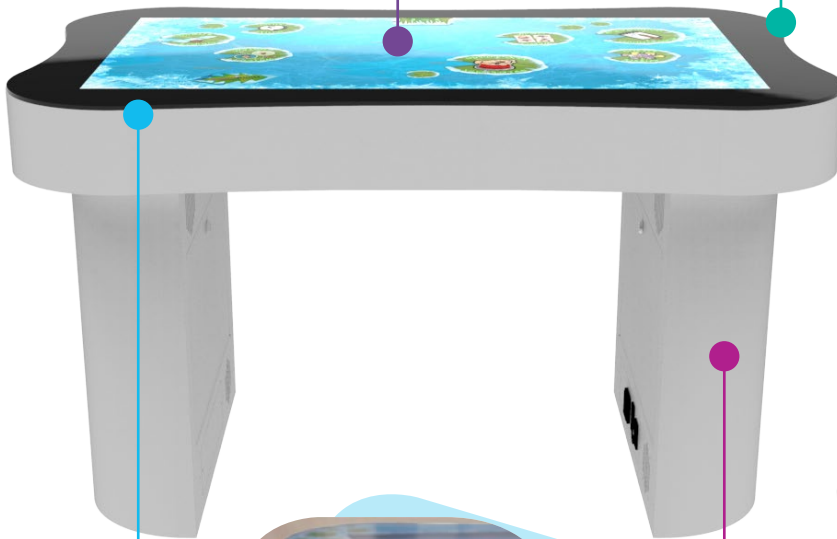

Unique Selling Points

Customizable software

Solid, all metal housing with rounded edges

Edge-to-Edge, bezel free, tempered 4mm glass

Customizable housing

Omnitapps Games bundle

The games bundle consists of seven games for 1 to 4 players, ages 2 and up. The games bundle is a complete solution and includes an additional Intel NUC mini PC to run the games.

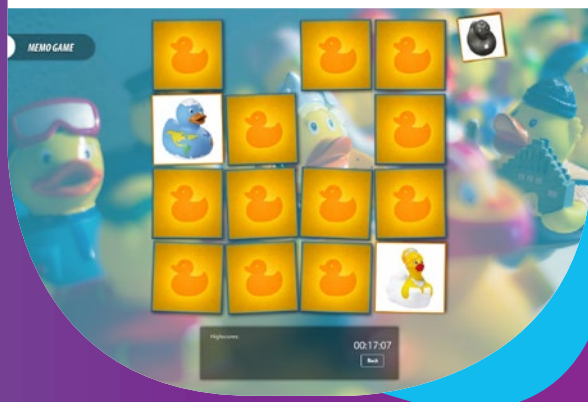

Puzzle 1 player

Choose a difficulty and solve a puzzle on the large screen.

Memo 1-2 players

Tap and find the right combinations of cards to win the game.

Scratchpad 1 player

Draw on the large screen with a selection of digital pencils.

Quiz 1 player

Look at the large pictures and answer the questions about them.

Match 1-4 players

Match the pictures on the table to the correct side of the table, up to four players.

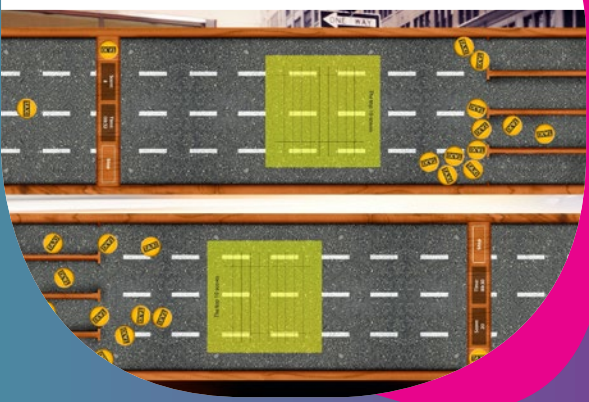

Omniapps Games bundle

Shuffle

1-2 players

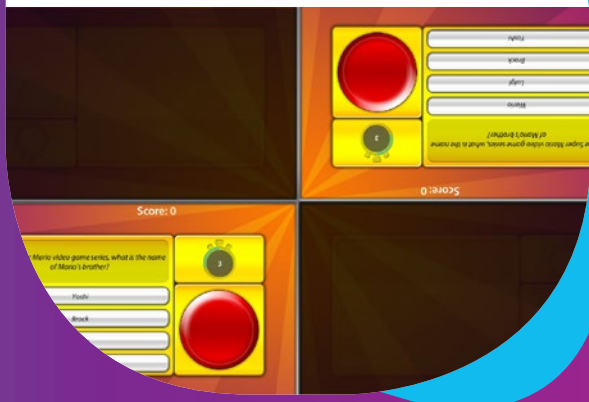

Play shuffle with two players at the same time and try to get into the highscores.

Battle quiz

2-4 players

Take a quiz with up to four players at the same time! Hit the big red button first and answer the question for additional points.

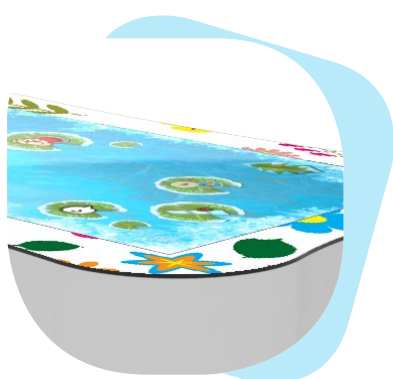

Fully customizable

Endless possibilities to customize the Kids Touch Table with your own corporate identity. Not just the hardware is customizable by changing the color of the housing or a custom printed bezel on the top surface. The software can be altered just as well: a custom startscreen and even the content of the games can be changed according to your needs.

Customizable housing color

Customizable bezel on the glass surface

Colorful kids chairs to complement the Kids Touch Table.

prestop

Kids Touch Table

Prestop integrates PCAP touch foil from 10" to 85" on glass in every size and shape. With our own cleanroom and our experience, we supply to many screen manufacturers, architects, interior builders, AV companies and end users who are interested in customized interactive displays. We can laminate PCAP technology on glass up to 12 mm thickness.

- Certified cleanroom (ISO 14644)
- Dutch design
- Assembled in The Netherlands
- Transport and installation worldwide

Prestop is your specialist for interactive experiences since 1993!

We develop and produce touch tables, information kiosks, touch screens, outdoor kiosks, industrial solutions and video walls. Prestop is also specialized in custom projects.
